

Laboratory Exercise 4

cpe 357 Fall 2020

Due to me by (or before) 4:00pm, Friday, October 19th.
The Written Exercises (problems) are to be done individually.

Problems

1. C Quiz corrections: Take your C Quiz and use your lab time to research and solve all the problems correctly.

Produce complete solutions (rather than “I should have added one.”, for example).

If you received full credit on a problem, simply write “full credit.”

Laboratory Exercises

There are no laboratory exercises this week. Stay tuned for next week.

What to turn in

For the Written Problems: individually written solutions to the problems according to the guidelines set forth in the syllabus.
